

Rearing Food on the Farm

Name

School

www.myfarmfood.co.uk

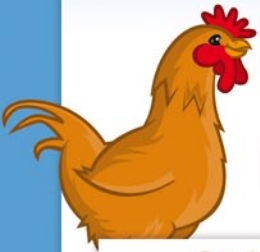

Farmers rear animals on the farm for food items for us to eat. Rearing means the farmer breeds and looks after animals until they are sold at a market. Some animals make food whilst at the farm e.g. cows for milk, other animals are slaughtered so we can eat the meat e.g. pigs for pork.

Food from animals

Can you unscramble the letters to reveal which food item comes from which animal?

Animals and Machines

As technology has developed many jobs that used to be done by hand have now been replaced by machines. This has saved farmers a lot of time. Draw pictures in the spaces below to show how times have changed.
